

Welcome to a Group

We Call Ourselves

as

The Patriots of Safety

There are no language
barriers when you are smiling.

Allen Klein

we hold
no religion,
no race,
no language
and
no creed

**We are Humans
and believe in Humanity**

**more than
any other belief**

We have Only One mission

Safety

**Safety for
Humans & Safety
for Society**

The image shows a network of stylized human figures in various colors (blue, orange, green, red, purple, yellow, etc.) arranged in a circular pattern. Each figure is connected to several others by dashed lines, forming a web. The figures are of varying sizes, with some appearing larger than others, suggesting a hierarchy or growth. The overall theme is a network or community that has expanded over time.

We started as

FEW

& are growing as

MANY

**And that's how we expect to spread
the safety message**

**Across board, beyond boundaries
without any discriminations**

Who We Are?

We are advocates and promoters of Safety.

Some of us started from Military,

few belonged to the engineering world,

many were those who suffered at the hands of Unsafe Conditions,

Some were students of safety.

So we all belong to diverse back grounds.

We began thinking to work for the cause of safety initially and individually in Pakistan,

Some of us started this Journey about twenty years ago

and few joined in, for the cause during last few years .

In short Today we consider Ourselves as “The Patriots of Safety”

How We Work?

We have 100s of Projects .

Some Done, Some in Pipeline.

All Focused on Safety.

Seminars, Workshops, Books & Awareness Drives,

Legislative Initiations & Television Programs,

Interactive Sessions, Inspections & Audits,

Safety Data Base & Research Journals,

Investigation Reports, Periodicals, & Trainings,

Collaborations, Consultancies & International Clubbing,

Environment Protection, Managing Safety Resources from

Humans to Gadgets,

Emergency Response & Supporting NDMA whenever and

how so ever.

These are things we do.

Who Leads?

“The Patriots of Safety” shall never belong to one single Individual.

He who works stays, He who works more, Leads.

This is our punch line for the management.

For us this shall be Law.

At The moment and for sometime its Mr. Zahid Faqir Leading the Team.

After Every 6 Months those part of the Team shall sit in to evaluate, discuss & decide who worked more and pronounce who shall lead in next six months.

But Leaders shall be expected to display highest standards of morality and merit.
